[Test Drive Unlimited Patch 1.68 B.121](#)

**Figure 1. Study Designs and Endpoints**

	<b>LAHG (NCT03012334)</b>	<b>LAIF (NCT03459612)</b>
<b>Study Design and Population</b>	Phase 1, single-center, randomized, subject- and investigator-blind, single-dose, placebo- and active-controlled, full 5-period crossover study 90 healthy adult subjects who were active drivers with no history of sleep disorder, substance abuse, or concomitant stimulant or sleep aid use	Phase 1, multicenter, randomized, subject- and investigator-blind, placebo- and active-controlled, full 4-period crossover study 68 healthy adult subjects who were active drivers with no history of sleep disorder, substance abuse, or concomitant stimulant or sleep aid use
<b>Study Treatments</b>	Lasmiditan, single oral dose of 50, 100, or 200 mg Alprazolam, single oral dose of 1 mg Placebo, single oral dose	Lasmiditan, oral dose of 100 or 200 mg (single dose at start of each period) Diphenhydramine, oral doses of 50 mg (dosed 2 hours before each driving test time point) Placebo, oral doses (whenever active drug not dosed to maintain blind)
<b>Study Time Points</b>	Driving test time point: 1.5 hours postdose Lasmiditan pharmacokinetic sampling time point: predose and following conclusion of driving test (2.58 hours postdose)	Driving test time points: 8, 12, 24 hours postdose (relative to lasmiditan dosing) Lasmiditan pharmacokinetic sampling time point: predose and up to 48 hours postdose
<b>Primary Endpoint</b>	Standard Deviation of Lateral Position (SDLP) using the Cognitive Research Corporation Driving Simulator (CRCDS)-MiniSim: subjects instructed to drive a 100-km highway segment with steady lane position and constant speed	
<b>Secondary Endpoints</b>	<p><b>Self-Reported</b></p> <ul style="list-style-type: none"> <li>Karolinska Sleepiness Scale (KSS)</li> <li>Self-reported readiness to drive</li> <li>100-mm visual analog scale (VAS): subject self-motivation, driving performance appraisal</li> </ul> <p><b>Performance</b></p> <ul style="list-style-type: none"> <li>CogScreen Symbol Digit Coding (SDC) test: number of correct responses, response accuracy, standard deviation of reaction time</li> </ul> <p><b>Driving Performance</b></p> <ul style="list-style-type: none"> <li>Lane exceedance: number, maximum, duration, exceedance area</li> <li>Speed: average speed, deviation, count</li> <li>Excessive Ay (cornering speed threshold)</li> <li>Number of collisions</li> <li>Divided attention: correct responses, omission and commission errors, reaction time, standard deviation of reaction times</li> </ul>	
<b>Safety Assessments</b>	Adverse events, clinical laboratory tests
